

Penryn Surgery Patient Representative Group Survey 2015 - Report

The survey was again run with the help of the Friends of Penryn Surgery in January.

To give us comparative results, except for the addition of four new questions about online services, we used the same questionnaire as the last three years.

The questionnaire has seven free text questions which enabled patients to make over 365 comments. To try and obtain responses from patients accessing all our services, questionnaires were distributed to health professionals to give to patients at the end of a consultation. The health professionals were given the questionnaires in approximate proportions to their workload. The branch surgeries at Mawnan Smith and Stithians had their share.

Analysis of the Service

About the practice

the following questions were asked

Your level of satisfaction with the practice's opening hours

Ease of contacting the practice on the telephone

Satisfaction with the day and time arranged for your appointment

Chances of seeing a doctor / nurse within 48 / 72 hours - omitted in error this year

Chances of seeing a doctor / nurse of your choice

Opportunity of speaking to a doctor / nurse on the telephone when necessary

Obtaining your medication from the pharmacy (penury surgery only)
